

## LIEDTEXT VON DORIA GRAY

Follow me into the shadows  
Hiding from the light  
Join, my merc, the unseen army  
A lethal weapon for the fight.

Streets have their own laws and orders  
Shoot and run and you'll survive  
Beware: Big Brother's always watching!  
Adrenalin keeps you alive ...  
Adrenalin

Follow me into the shadows  
Join, my merc, the secret might  
Follow me into the shadows  
Come and join the unseen fight!

Weapons made for mass destruction  
Fear and honor are their names!

Badly, deadly, fatal error:  
To trust someone who's playing games.

Lies are very daily business  
In this world dark and unwired  
Truth seldom shows her ugly face  
As dragonfood you're paid and hired.

Played and cheated from the beginning  
Two-face smiles and he succeeds  
Paid and planned to be a scapegoat  
And a scapegoat dies and bleeds,  
Dies .... Bleeds ...

Run! Run! Run!

Follow me into the shadows  
Join, my merc, the secret might  
Follow me into the shadows  
Come and join the unseen fight!
